**Description**

In ruby 2.1.3, line 2095 of configure.in is:

```plaintext
AC_MSG_RESULT(${setjmp_prefix}setjmp${setjmp_suffix}${setjmp_cast:+($setjmp_cast)})
```

This substitution:

```plaintext
${setjmp_cast:+($setjmp_cast)}
```

is not valid sh syntax for OpenBSD/NetBSD at least, though it is valid bash syntax.

This was fixed in trunk in r45715 to use:

```plaintext
${setjmp_cast:+($setjmp_cast)}
```

which works in OpenBSD/NetBSD.

I request that r45715 be backported to the ruby_2_1 branch before the 2.1.4 release.
