**Backport:授 2.0.0: DONTNEED, 2.1: DONTNEED, 2.2: DONE**

**Description**

Binaries (ruby.exe and rubyw.exe) generated from ruby_2_2 branch or released package do not include resource (.rc) information.

Both files (ruby.rc and rubyw.rc) were generated, but seems no longer linked into the executable.

Resource information is required for Ruby executables to be properly identified by both users and automatic check tools.

- Status changed from Assigned to Feedback

I can't reproduce it with i686-w64-mingw32 on darwin and cygwin. What's your "mingw"?

mingw-w64: gcc.exe (rubenvb-4.7.2-release) 4.7.2

Seems the problem is caused by make all, since running make ruby.exe actually embeds the resource.
