Ruby master - Bug #10975

[BUG] rb_sys_fail(getaddrinfo) - errno == 0 (Ruby 2.0.0)

03/15/2015 04:20 PM - dr_gonzo (Steve Johnson)

Status: Closed
Priority: Normal
Assignee: 
Target version:

ruby -v: ruby 2.0.0p598 (2014-11-13 revision 48408) [x86_64-linux]
Backport: 2.0.0: WONTFIX, 2.1: DONE, 2.2: DONE

Description
I'm not a developer and I'm not interested in upgrading Ruby as a troubleshooting step. I googled the error but have no idea if the solutions I found address this issue.

Environment: Ubuntu 14 with Ruby 2.0.0, Apache 2.4, PHP 5.6, Jekyll 2.4.0, Markdown source with some HTML in source also

Steps to reproduce:
1. rm -rf _site
2. bundle exec jekyll serve
3. check-links --no-warnings .

Expected result: check-links runs without errors
Actual result: check-links starts throwing errors while checking files that were authored in HTML:

Problem: ./_site/guides/m1x/other/solr-ee-patches.html
Link: http://support.magentocommerce.com/
Response: Too many open files - getaddrinfo
Note: check-links worked fine before I added the HTML-authored files to the project.

Final stack trace:
