

Ruby master - Bug #11155

Files named 'b' cannot be autoloaded

05/15/2015 07:10 PM - tenderlovemaking (Aaron Patterson)

Status: Closed	
Priority: Normal	
Assignee:	
Target version:	
ruby -v: ruby 2.3.0dev (2015-05-14 trunk 50494) [x86_64-darwin14]	Backport: 2.0.0: REQUIRED, 2.1: DONE, 2.2: DONE
Description I have two files: a.rb <pre>module A autoload :C, 'b' end p ::A::C</pre> b.rb <pre>puts "START" module A class C end end puts "FINISH"</pre> When I run a.rb, I get an exception: <pre>[aaron@TC xxx (master)]\$ ruby --disable-gems -I. a.rb START /Users/aaron/git/xxx/b.rb:3:in `<module:a>': (nameerror)="" (required)>'="" `<main="" `<top="" `require'="" a.rb:5:in="" a::c="" aaron="" b.rb:2:in="" constant="" from="" git="" uninitialized="" users="" xxx="">' [aaron@TC xxx (master)]\$</module:a>':></pre> If I change the file to something else, like c, then the exception will not happen. This seems to break on every version that implements autoload.	

Associated revisions

Revision 1fc214c0 - 05/16/2015 07:02 PM - tenderlove

- load.c (loaded_feature_path): stop returning false negatives for filenames which are trailing substrings of file extensions. For example, 'b', which a trailing substring of ".rb" should not return false. [Bug #11155][ruby-core:69206]
- test/ruby/test_autoload.rb: test for fix
