

Ruby master - Bug #11260

[PATCH] Net::FTP keeps a TCPServer opened when sending the data port fails

06/14/2015 10:12 AM - Eregon (Benoit Daloze)

Status:	Closed	
Priority:	Normal	
Assignee:	Eregon (Benoit Daloze)	
Target version:		
ruby -v:	ruby 2.2.2p95 (2015-04-13 revision 50295) [x86_64-linux]	Backport: 2.0.0: WONTFIX, 2.1: DONE, 2.2: DONE

Description

Net::FTP will keep the TCPServer created in makeport opened if sendport fails. The patch sends the port in its (only) caller instead, so the TCPServer is appropriately closed no matter the outcome.

This was detected with RubySpec and a leak checker based on test/lib/leakchecker.rb.
