

Ruby trunk - Feature #11398

deprecate constants

07/28/2015 07:34 AM - nobu (Nobuyoshi Nakada)

Status:	Closed
Priority:	Normal
Assignee:	
Target version:	
Description	
Sometimes old constants are deprecated but still remained for backward compatibilities. It is not noticed and will be kept forever, with no warnings, though. So I propose a method <code>Module#deprecate_constant</code> to mark a constant obsolete and emit a warning message when it is referred. https://github.com/nobu/ruby/tree/Module%23deprecate_constant

History

#1 - 07/28/2015 07:57 AM - matz (Yukihiro Matsumoto)

It seems a good idea, for example, we have `TimeoutError` (instead of `Timeout::Error`).

Matz.

#2 - 07/30/2015 04:20 AM - nobu (Nobuyoshi Nakada)

- Status changed from Open to Closed

Applied in changeset r51444.
