

## Ruby trunk - Bug #1145

### IRB adds trailing quote to wtring methods when performing auto-completion

02/12/2009 09:13 AM - gtoast (C I)

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> keiju (Keiju Ishitsuka)	
<b>Target version:</b> 1.9.3	
<b>ruby -v:</b> ruby 1.8.7 (2008-08-11 patchlevel 72) [powerpc-darwin8]	<b>Backport:</b>
<b>Description</b> =begin IRB adds a trailing quote to some method names when performing an autocompletion. IRB does this for single quote and double quote string literals. Not all methods are effected (for example '.delete' is fine) but at least the following are: .length, .size, .inspect, .to_i  Steps to replicate:  1. Enable autocompletion by adding the following line to your ~/.irbrc: require 'irb/completion'  2. Type any string literal, a period, and the characters 'len' to indicate the 'length' method  3. Press tab  To illustrate: power-mac-g4:~ \$ irb irb(main):001:0> 'test'.len .....becomes... irb(main):001:0> 'test'.length' =end
