

Ruby trunk - Feature #11650

Add custom error message arg to Timeout.timeout

11/03/2015 10:27 AM - kirs (Kir Shatrov)

Status:	Closed
Priority:	Normal
Assignee:	
Target version:	
Description	
Now Timeout.timeout can accept custom error message:	
<pre>Timeout.timeout(30, CustomException, "custom_message")</pre>	
This option might be useful for networking:	
<pre># net/smtp.rb#do_start Timeout.timeout(30, Net::OpenTimeout, "failed to open #{host}") do tcp_connection end</pre>
