Description		
Hi again!		
Currently bybug's test suite passes in 2.1 except for two failing tests: one that would get fixed with the backport I requested yesterday (https://bugs.ruby-lang.org/issues/11646) and the other one by backporting https://bugs.ruby-lang.org/projects/ruby-trunk/repository/revisions/48609 .		
So, if possible, it would be great to have this one backported too.		
Thanks!
