SortedSet cannot be put in a SortedSet because it is not comparable (unsortable).

Do you suggest that it should emit an error on every new/add/merge?
I wonder if it's worth the cost..

Bug #117: SortedSet#flatten_merge and SortedSet#flatten can't actually flatten nested SortedSets

set1 = SortedSet[1, 2]
set2 = SortedSet[3, 4, SortedSet[5, 6]]
set1.send(:flatten_merge, set2) # => raises a NoMethodError: undefined method `<=>' for #

SortedSet[1, 2, SortedSet[3, 4, SortedSet[5, 6, SortedSet[7, 8]]], 9, 10].flatten # => raises a NoMethodError: undefined method `<=>' for #
SortedSet:0x5f2be8

SortedSet[1, 2, SortedSet[3, 4]].flatten # => raises an ArgumentError: comparison of Fixnum with SortedSet failed

I think that the best solution to this problem would be to undefine #flatten, #flatten! and #flatten_merge from SortedSet.
Their existance only confuses by suggesting that you can put Sets or SortedSets inside a SortedSet.
Also, there is no case I can think of where you could actually call flatten on a SortedSet.

By the commit http://redmine.ruby-lang.org/repositories/diff/ruby-18?rev=23322, I suggest this bug is automatically solved.
