

Backport187 - Feature #1206

New unit test runner: Test::Unit::UI::Xml::TestRunner

02/25/2009 05:09 PM - flavio (Flavio Castelli)

Status:	Rejected	
Priority:	Normal	
Assignee:		
Target version:		
Description =begin I have created a new unit test runner that behaves like Test::Unit::UI::Console::TestRunner but can also create a xml file containing the unit test results. Personally I think it can be quite useful, especially for processing unit test results with 3rd party tools. This is my first patch so please forgive me if something is wrong :) I have attached the patch below. =end
