

Ruby master - Bug #12436

newline argument of File.open seems not respected on Windows

05/29/2016 11:28 AM - Eregon (Benoit Daloze)

Status: Open	
Priority: Normal	
Assignee:	
Target version:	
ruby -v: ruby 2.2.4p230 (2015-12-16 revision 53155) [i386-mingw32]	Backport: 2.1: UNKNOWN, 2.2: UNKNOWN, 2.3: UNKNOWN
Description <pre>File.open("abc", "wt", newline: :lf) { f f.write "a\n" f.puts "b" }</pre> <p>will create a file with CRLF newlines, ignoring the newline conversion argument. It should write only LF instead, like on other platforms when the newline conversion is specified.</p>
