

Ruby master - Misc #12641

JSON documentation incomplete

08/01/2016 10:30 AM - rovf (Ronald Fischer)

Status:	Open	
Priority:	Normal	
Assignee:		
Description		
The documentation of the JSON stdlib class (i.e. http://ruby-doc.org/stdlib-2.2.5/libdoc/json/rdoc/JSON.html) is missing a description, what the user has to do to provide JSON serialization for his own classes (i.e. description of the to_json and from_json callback is missing).

from_json?

Maybe you're confusing it with Rails?

[ActiveModel::Serializers::JSON#from_json](#)
