Status: Third Party's Issue
Priority: Normal
Assignee: 
Target version: 
ruby -v: 
Backport: 2.1: UNKNOWN, 2.2: UNKNOWN, 2.3: UNKNOWN

Description
Trying to run the console, but I get a massive error.

I think I should see development.sqlite3 and text.sqlite3 in my /db folder, but they're not there.

I'm attaching the bug report.
