paragraph mode inconsistency between `IO#each_line` and `String#each_line`

12/02/2016 06:21 AM - nobu (Nobuyoshi Nakada)

Status: Closed
Priority: Normal
Assignee: matz (Yukihiro Matsumoto)
Target version:
ruby -v:

Backport: 2.1: UNKNOWN, 2.2: UNKNOWN, 2.3: UNKNOWN

Description

With this lines.rb:

```ruby
lines = "abc

def
"

p IO.pipe{|r,w|w.print lines; w.close; r.each_line("").to_a}
p lines.each_line("").to_a

$ ./ruby -v lines.rb
ruby 2.4.0dev (2016-12-02 trunk 56965) [x86_64-darwin15]
["abc

", "def
"]
["abc

", "def
"]
```

I think these methods should be consistent and the behavior of IO would be desirable.
