

Ruby master - Bug #13024

Confusing error message matching a non-ASCII string with ASCII-regex

12/11/2016 07:28 PM - herwin (Herwin W)

Status: Closed	
Priority: Normal	
Assignee:	
Target version:	
ruby -v:	Backport: 2.1: UNKNOWN, 2.2: UNKNOWN, 2.3: UNKNOWN
Description <pre>irb(main):001:0> "\u2603".match(/./n) (irb):1: warning: regexp match /.../n against to UTF-8 string => #<MatchData "%></pre> <p>I actually had to read the source to discover the intention of this error (partly because I copied the /n from somewhere without knowing what it meant). Replacing "against to" with just "against" would improve the grammar (full disclosure: English isn't my native language either, I'm open to other suggestions here).</p>

History

#1 - 12/12/2016 03:05 PM - naruse (Yui NARUSE)

Hmm, maybe the error message express /.../n is ASCII-8BIT (binary) regexp...

#2 - 02/22/2017 07:31 AM - akr (Akira Tanaka)

- Status changed from Open to Closed

Applied in changeset r57684.

refine warning message for binary regexp /.../n.

Reported by Herwin W. [ruby-core:78592] [Bug [#13024](#)]
