Revision ea0cede5 - 06/23/2018 07:21 AM - k0kubun (Takashi Kokubun)

mjit.c: initial cygwin support

thread_pthread.c: Drop pthread_attr_setscope usage. It seems that, at least on Linux and macOS, PTHREAD_SCOPE_PROCESS is not supported and thus PTHREAD_SCOPE_SYSTEM should be used by default.

Let's just stop calling this until we find some platform that needs pthread_attr_setscope(&attr, PTHREAD_SCOPE_SYSTEM).
