

Ruby trunk - Bug #15137

Can't run brew cleanup

09/18/2018 02:56 PM - budrecki (Tony Budrecki)

Status: Third Party's Issue	
Priority: Normal	
Assignee:	
Target version:	
ruby -v: ruby 2.3.7p456 (2018-03-28 revision 63024) [universal.x86_64-darwin17]	Backport: 2.3: UNKNOWN, 2.4: UNKNOWN, 2.5: UNKNOWN
Description I'm using Homebrew for Mac and I recently ran an update, followed by an upgrade. As usual, I ran cleanup afterward using "brew cleanup". Unfortunately the cleanup crashed. I cannot complete a brew cleanup and I'm getting the following error ... /usr/local/Homebrew/Library/Homebrew/cache_store.rb:35: [BUG] Segmentation fault at 0x00000001077ffffe ruby 2.3.7p456 (2018-03-28 revision 63024) [universal.x86_64-darwin9.0] I've attached the crash report, along with the output generated.

I guess this is a same issue as <https://github.com/Homebrew/brew/issues/4923> = <https://github.com/Homebrew/brew/issues/4943> = <https://github.com/Homebrew/brew/pull/4949>.

#10 - 10/04/2018 03:40 AM - znz (Kazuhiro NISHIYAMA)

- Has duplicate Bug #15197: Segmentation fault in Ruby script cache_store.rb from homebrew on macOS Mojave added

#11 - 10/06/2018 02:27 PM - nobu (Nobuyoshi Nakada)

- Has duplicate Bug #15207: Bug - interpreter or extension libraries, Crashed running brew upgrade added

#12 - 10/06/2018 03:11 PM - nobu (Nobuyoshi Nakada)

- Status changed from Open to Third Party's Issue

I can't reproduce it on linkage.db files uploaded there, but dbm_open in the system library returns NULL instead.

I guess the system bundled dbm has a incompatibility or a bug which causes the failure or the segfaults, and we can't manage that library.
