Target version:	
ruby -v: ruby 2.5.1p57 (2018-03-29 revision 63029) [i386-mingw32]	Backport: 2.3: UNKNOWN, 2.4: UNKNOWN, 2.5: UNKNOWN

Description

Hello,

The following options are not working for the win32screenshot gem (or possibly rautomation) in Ruby 2.5.1. The error I get is below. I have attached a log as well. The code works in Ruby 2.4.4.

```
C:/Selenium_Ruby/runtime/lib/ruby/gems/2.5.0/gems/rautomation-0.17.0/lib/rautomation/adapter/win_32/functions.rb:298: [BUG] Segmentation fault
```

Sample code...

```
filename_and_path="c:\myscreenshot.png"
```

```
puts "Attepting to take screenshot of foreground using Win32screenshot gem...\n\n"  
Win32::Screenshot::Take.of(:foreground).write(filename_and_path)
```

```
puts "Attepting to take screenshot of window with title #{window_title} using Win32screenshot gem...\n\n"  
Win32::Screenshot::Take.of(:window, :title => /#{window_title}/i).write(filename_and_path) #Another option
```

```
puts "Attepting to take screenshot of desktop using Win32screenshot gem...\n\n"  
Win32::Screenshot::Take.of(:desktop).write(filename_and_path)
```
