**Description**

I have an alias called brewitup in my .zshrc that runs

`brew update; brew upgrade; brew prune; brew cleanup; brew doctor`

When I ran this it got hung up and gave me the error:

```
/usr/local/Homebrew/Library/Homebrew/cache_store.rb:31: [BUG] Segmentation fault at 0x00000001097fffffe
```

I have never put in a bug before so I tried to gather as much information as I could; I attached the command output and the crash report.

**Related issues:**

Is duplicate of Ruby master - Bug #15137: Can't run brew cleanup

**History**

**#1 - 10/01/2018 02:09 AM - nobu (Nobuyoshi Nakada)**
- Is duplicate of Bug #15137: Can't run brew cleanup added

**#2 - 10/06/2018 03:11 PM - nobu (Nobuyoshi Nakada)**
- Status changed from Open to Third Party's Issue

I can't reproduce it on linkage.db files uploaded there, but dbm_open in the system library returns NULL instead.
I guess the system bundled dbm has an incompatibility or a bug which causes the failure or the segfaults, and we can't manage that library.
