

Ruby trunk - Bug #15211

Integer.try_convert

10/07/2018 04:17 AM - nobu (Nobuyoshi Nakada)

Status: Open	
Priority: Normal	
Assignee:	
Target version:	
ruby -v:	Backport: 2.3: UNKNOWN, 2.4: UNKNOWN, 2.5: UNKNOWN

Description

I found Integer doesn't have try_convert method, which converts the argument by to_int method without explicit conversions like Integer().

This is useful to treat an Integer-like argument like as methods written in C.

https://github.com/nobu/ruby/tree/feature/Integer.try_convert

History

I don't know about the other try_convert

how does Ruby react if you try to overwrite the try_convert from the ruby side?

i suspect that currently it doesn't care, should that be changed?
