

Ruby master - Misc #15249

Documentation for attr_accessor and attr_reader should be corrected

10/23/2018 08:09 PM - CaryInVictoria (Cary Swoveland)

Status: Open	
Priority: Normal	
Assignee:	
Description	
<p>The documentation for Module#attr_accessor (v2.5.1) begins, "Defines a named attribute for this module, where the name is symbol.id2name, creating an instance variable (@name) and...". Similarly, the documentation for Module#attr_reader states, "Creates instance variables and...". These statements do not appear to be correct:</p>	
<pre>class C attr_accessor :dog attr_reader :cat end C.new.instance_variables #=> []</pre>
