

Ruby trunk - Feature #15341

Provide emoji version as RbConfig::CONFIG['UNICODE_EMOJI_VERSION']

11/26/2018 04:53 AM - duerst (Martin Dürst)

Status:	Closed
Priority:	Normal
Assignee:	matz (Yukihiro Matsumoto)
Target version:	2.6
Description	
<p>The Emoji version is different from the Unicode version. Currently, the Unicode version is accessible from RbConfig::CONFIG['UNICODE_VERSION'], but it's not possible to get the Emoji version.</p> <p>I need the Emoji version for testing, so it would be good to make it available as RbConfig::CONFIG['EMOJI_VERSION'] or RbConfig::CONFIG['UNICODE_EMOJI_VERSION'].</p> <p>Background: Currently, the Unicode version is 10.0.0, the Emoji version is 5.0. For Ruby 2.6, the Unicode version will be 11.0.0, the Emoji version will be 11.0. The Unicode Consortium expects to keep the versions parallel (but not the same) going forward.</p> <p>Matz, can you please approve or reject this request? I'll work on implementing it, or ask Nobu if I need help.</p>

As I assume matz is quite busy right now, perhaps it should/could be added to the upcoming developer meeting at:

<https://bugs.ruby-lang.org/issues/15342>

Now that the emoji (emo?) zombies wrestling with genies and faeries has been integrated (<https://git.ruby-lang.org/ruby.git/commit/?id=a96a594f9978b28d2d374f4a0fc15f5a2224df9b>).

#6 - 12/07/2018 08:51 AM - nobu (Nobuyoshi Nakada)

- Status changed from Open to Closed

Applied in changeset [trunk|r66270](#).

Add UNICODE_EMOJI_VERSION to RbConfig [Feature [#15341](#)]
