

Ruby trunk - Bug #15375

Crash report for Ruby 2.5.3p105

12/03/2018 08:05 PM - nathan.f77 (Nathan Broadbent)

Status: Open	
Priority: Normal	
Assignee:	
Target version:	
ruby -v: ruby 2.5.3p105 (2018-10-18 revision 65156) [x86_64-darwin18]	Backport: 2.4: UNKNOWN, 2.5: UNKNOWN
Description <p>Hello, Ruby 2.5.3 just crashed with a segfault in my Sidekiq worker. This is on my Mac OS Mojave, and I am using the jemalloc allocator. Ruby was installed using RVM.</p> <p>I have attached "ruby-crash-report-logs.txt", which contains the output in the console.</p> <p>I also attached "~/Library/Logs/DiagnosticReports/ruby_2018-12-04-025451_Nathans-MacBook-Pro.crash"</p> <p>Please let me know if I can provide any further information. Thankyou</p>	
Related issues: <p>Related to Ruby trunk - Bug #15362: [PATCH] Avoid GCing dead stack after swit... Closed</p>
