

Ruby trunk - Misc #15630

Clarification on Comparable documentation

03/01/2019 04:12 AM - shugo (Shugo Maeda)

Status:	Closed	
Priority:	Normal	
Assignee:		
Description		
The documentation of Comparable#> says:		
<pre>/* * call-seq: * obj > other -> true or false * * Compares two objects based on the receiver's <code><=></code> * method, returning true if it returns 1. */</pre>		
However, Comparable#> returns if and only if <=> returns any value greater than 0. It's better to fix the documentation, isn't it?		

Associated revisions

Revision f005ccc7 - 04/22/2019 08:15 AM - shugo (Shugo Maeda)

Clarify requirements of <=>

A return value of <=> is automatically converted to -1, 0, or 1, so other values can be returned. [Misc #15630]
