

## Ruby master - Bug #15850

### Deprecate and remove optparse/ac

05/15/2019 05:19 AM - shyouhei (Shyouhei Urabe)

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Target version:</b>	
<b>ruby -v:</b>	<b>Backport:</b> 2.4: REQUIRED, 2.5: REQUIRED, 2.6: REQUIRED

#### Description

- It seems not maintained since forever.
- Not documented in any form.
- I have never seen someone actually using it.
- It does not actually emulate autoconf; for instance it cannot parse --enable-fiber-coroutine=amd64 (this is a valid option that ruby itself takes).

I think this tiny script is better placed under sample/optparse.
