

## Ruby master - Feature #15999

### KeyError#inspect does not contain receiver and key

07/14/2019 07:31 AM - znz (Kazuhiro NISHIYAMA)

<b>Status:</b> Open	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Target version:</b>	
<b>Description</b>	
Some exception classes accept receiver:, but #inspect does not show such information. How about adding receiver (and key) to #inspect?	
<pre>KeyError.new("message", receiver: :receiver, key: :key).inspect #=&gt; "&lt;KeyError: message&gt;" NameError.new("message", receiver: :receiver).inspect #=&gt; "&lt;NameError: message&gt;" NoMethodError.new("message", receiver: :receiver).inspect #=&gt; "&lt;NoMethodError: message&gt;"</pre>
