Hi, we will open DevMeeting with Matz.

Date: 2019/11/12 13:00-17:00
Place: online meeting (ask me if you want to attend. I'll share it on ruby-comitter's slack #devmeeting)
Topics: confirm Ruby 2.7 specs with Matz

Please write your new features in NEWS file and we will read them.

If you have special topics you want to discuss, please tell comment them.

Thanks,
Koichi

The meeting was not well attended, and there were few discussions. There was a sense of enthusiasm for the upcoming Ruby 2.7 release, but the lack of attendees made it hard to come to any conclusions. The meeting was recorded, but the recording was not transcribed into English, which was a disappointment. It was decided that more detailed notes should be taken for future meetings.
