Update Unicode data to Unicode Version 14.0.0

07/12/2021 07:44 AM - duerst (Martin Dürst)

Status: Open
Priority: Normal
Assignee: duerst (Martin Dürst)
Target version: 3.1

Description
Unicode Version 14.0.0 is currently in beta. See the announcement at https://home.unicode.org/unicode-14-0-beta-review/ and more details at https://www.unicode.org/versions/beta-14.0.0.html. We should test the new data during the beta period, and later update Ruby after the official release, which is planned for September 14, 2021.

I have successfully tested upgrading to Unicode 14.0.0 with the beta release data, and reported this back to the Unicode consortium. This means that the actual upgrade should be rather smooth.
