Description

Following code from trunk, -r24602, segfaults in Linux 2.6.15.5:

require 'readline'
Readline::readline("(rdb:1)", true)

I've narrowed this down to 8/20/09 change to ext/readline/readline.c, -r24594 (rl_prep_terminal() call)
If I back out the change, then it works properly.

History

#1 - 08/21/2009 03:07 PM - naruse (Yui NARUSE)
- Status changed from Open to Closed
- % Done changed from 0 to 100

Applied in changeset r24604.
