

Ruby 1.8 - Bug #2793

inherited hook now runs before Class.new block

02/26/2010 04:23 AM - bitsweat (Jeremy Daer)

Status:	Open
Priority:	Normal
Assignee:	
Target version:	Ruby 1.8.8
ruby -v:	ruby 1.8.8dev (2010-02-24 revision 26634) [i386-darwin10.2.0]

Description

=begin

```
class A; def self.inherited(foo) foo.bar end end
=> nil
Class.new(A) { def self.bar; 'bar' end }
```

1.8.7

=> [#Class:0x1003452f0](#)

1.8.8 (regression or backport?)

NoMethodError: undefined method `bar' for [#Class:0x1003470a0](#)

1.9.2

NoMethodError: undefined method `bar' for [#Class:0x0000010107daa8](#)

=end

History

#1 - 02/26/2010 04:32 AM - wycats (Yehuda Katz)

=begin

In my opinion, 1.8.8 should reliably run 1.8.7 applications, so this should be reverted :)
