Target version:	
Description	
<pre>=begin You can zip an Array onto a Range, but not a Range onto an Array. RUBY_DESCRIPTION => "ruby 1.8.7 (2009-06-12 patchlevel 174) [x86_64-linux]" (9..12).zip([1,2,3,4]) => 9.1, [10.2], [11.3], [12.4] [1,2,3,4].zip(5..8) TypeError: can't convert Range into Array from (irb):6:in `zip' from (irb):6 from :0 Wonder if zip should call #to_a on its argument? (5..8).to_a => [5, 6, 7, 8] =end</pre>
