Description
=end
Hi, Ryan Davis

Incompatibility of testrb is reported in [Bug #3037].
Are you willing to fix these? Or, should we consider this is a spec change?

- 1.8.7's testrb accepts --help to output detailed help of available options. 1.9.2dev does not.
- 1.8.7's testrb accepts -I to specify load path. 1.9.2dev does not.

Are you willing to fix these? Or, should we consider this is a spec change?

- 1.8.7's testrb accepts --help to output detailed help of available options. 1.9.2dev does not.
- 1.8.7's testrb accepts -I to specify load path. 1.9.2dev does not.

testrb isn't mine. I have contributed minitest only. My contribution of minitest_tu_shim was rejected in favor of a homegrown solution written by someone else on ruby-core.

Not true. Because it was not useful, so we had to rewrite it. What we need is to fix compatibility, not to introduce yet another incompatibility.

What part of what I said is not true? Regardless, testrb is NOT my software and I do NOT maintain it. So I don't really understand the point you're trying to make.

Besides, isn't 1.9 exactly the time to introduce incompatibilities? I've seen plenty so far.

Hi, Ryan

Thank you for your response!

2010/5/15 Ryan Davis ryand-ruby@zenspider.com:

testrb isn't mine. I have contributed minitest only. My contribution of minitest_tu_shim was rejected in favor of a homegrown solution written by someone else on ruby-core.

You mean you are NOT a maintainer for test/unit shim?
At least currently, you are recognized as test/unit maintainer:

http://redmine.ruby-lang.org/wiki/ruby/Maintainers

May I update the list?

I am not nor have I ever been. Yes, please take me off the list for test/unit.

% svn log lib/test | grep ' | cut -f2 -d| | occur -p
16:55.17%: akr
8:27.59%: nobu
4:13.79%: usa
1: 3.45%: mame

I am not nor have I ever been. Yes, please take me off the list for test/unit.

Done. Thank you for your quick response!
A test/unit maintainer is now wanted.

#8 - 05/19/2010 09:05 PM - mame (Yusuke Endoh)

- Target version changed from 1.9.2 to 2.0.0

#9 - 07/09/2010 03:00 AM - tenderlovemaking (Aaron Patterson)

- File p.patch added

Here is a patch that converts testrb to use optparse, adds -I and --help. How about it?

#10 - 07/14/2010 09:02 PM - runpaint (Run Paint Run Run)

No objection. Note also the existence of http://redmine.ruby-lang.org/issues/show/3380.

Cool, I made the change. Yes, I will ask Ryan to comment on #3380.
