Ruby master - Bug #3701
Gem.find_files returns empty array
08/17/2010 02:21 AM - mame (Yusuke Endoh)

<table>

</tr>
</tbody>
</table>

r28919 seemed to break Gem.find_files:

```bash
$ ../local/bin/ruby -e 'p Gem.find_files("*/.rb").size'
0
```

When I revert r28919 manually, it seems to work correctly:

```bash
$ ../local/bin/ruby -e 'p Gem.find_files("*/.rb").size'
1898
```

This issue actually make hoe(*) not work.

I just tested this code on trunk and it seems to work fine for me. Do you have any other information about it?

  * Evan

Hi, Nobu and Evan

r28919 seemed to break Gem.find_files:

```bash
$ ../local/bin/ruby -e 'p Gem.find_files("*/.rb").size'
0
```

When I revert r28919 manually, it seems to work correctly:

```bash
$ ../local/bin/ruby -e 'p Gem.find_files("*/.rb").size'
1898
```

This issue actually make hoe(*) not work.

This issue was solved with changeset r29017.
Yusuke, thank you for reporting this issue.
Your contribution to Ruby is greatly appreciated.
May Ruby be with you.

Hi,

2010/8/17 Evan Phoenix evan@fallingsnow.net:

I just tested this code on trunk and it seems to work fine for me. Do you have any other information about it?

Umm, I can't understand why you couldn't reproduce it.
"make install" may be needed to reproduce. Did you?

Anyway, nobu's fix (r29017) works for me. Thanks!
