

Ruby master - Bug #3973

Unexpected error and segmentation fault without close

10/21/2010 02:44 PM - niw (Yoshimasa Niwa)

Status: Closed	
Priority: Normal	
Assignee:	
Target version:	
ruby -v: ruby 1.9.2p0 (2010-08-18 revision 29036) [x86_64-darwin10.4.0]	Backport:
Description =begin Run next small code on ruby 1.9.2p0 shows unexpected TypeError on line 3. while true f = File.open("/dev/null", "w") f.write("a") # => in `': wrong argument type #<Class:0x0000010086dbb0> (expected Data) (TypeError) end This code doesn't have "f.close" so it's buggy, but it may not raise TypeError. Also, next code causes segmentation fault. require 'net/http' while true Net::HTTP.get(URI.parse("http://localhost/")) f = File.open("/dev/null", "w") f.write("a") end Ruby 1.9.2p0 close open while TypeError Segmentation Fault =end
