

Ruby trunk - Bug #4008

Rails 3::declarative_authorization::authorization_rules request => segv ruby 1.9.2

10/31/2010 08:49 PM - Feanor (mike pusti)

Status: Closed	
Priority: Normal	
Assignee: ko1 (Koichi Sasada)	
Target version: 2.6	
ruby -v: ruby 1.9.2p0 (2010-08-18 revision 29036) [x86_64-linux]	Backport:
Description	
I requested the route http://localhost:3000/authorization_rules of my Rails 3 project when the development server crashed.	
http://github.com/stffn/declarative_authorization	
Arch Linux(Kernel: 2.6.35-ARCH) rvm 1.0.18	

History

#1 - 10/31/2010 08:59 PM - Feanor (mike pusti)

- File *crash.log* added

It produces 2 different outputs

#2 - 11/01/2010 07:50 PM - nobu (Nobuyoshi Nakada)

- Priority changed from 5 to 3

It's infinite recurring, seems to fail to check if the SEGV is stack overflow, but it's not always guaranteed.

#3 - 06/26/2011 04:04 PM - naruse (Yui NARUSE)

- Status changed from Open to Assigned

- Assignee set to nahi (Hiroshi Nakamura)

#4 - 06/26/2011 04:17 PM - nahi (Hiroshi Nakamura)

- Target version changed from 1.9.2 to 1.9.3

#5 - 06/27/2011 01:02 PM - nahi (Hiroshi Nakamura)

- Assignee changed from nahi (Hiroshi Nakamura) to ko1 (Koichi Sasada)

Here's a summary of crash.log: <https://gist.github.com/1048296>

As nobu said, infinite recursion should be the cause.

mike, would you please contact to declarative_authorization author for help?

Sasada-san, please close this ticket as 'Rejected(Not a bug)' if you're OK. I'm assigning you since I heard that you wanted to detect some kinds of infinite recursions as 'SystemStackError'. I don't know it's the one or not.

#6 - 07/10/2011 02:31 PM - ko1 (Koichi Sasada)

- Target version changed from 1.9.3 to 2.0.0

I send it to 1.9.x. (don't touch it before 1.9.3).

#7 - 06/26/2012 04:51 AM - ko1 (Koichi Sasada)

- Status changed from Assigned to Feedback

Could you try on current trunk?

#8 - 11/26/2012 09:09 AM - ko1 (Koichi Sasada)

- Target version changed from 2.0.0 to 2.6

#9 - 03/16/2014 08:51 PM - zzak (Zachary Scott)

No feedback for over a year, should we close this?

#10 - 03/17/2014 01:52 AM - nobu (Nobuyoshi Nakada)

- Description updated

Seems stack overflow, probably.

1.9.2 has died long ago, and there are many changes for it.

I think there is no chance for new release.

#11 - 03/17/2014 07:42 AM - zzak (Zachary Scott)

I am concerned about what Nahi said regarding infinite recursion handling. Also, after 2.0 Koichi asked for reproduce on trunk which makes me think he anticipates this issue > 1.9.2.

I'll leave this ticket for ko1 to determine whether or not it should be closed

#12 - 01/31/2017 08:54 AM - ko1 (Koichi Sasada)

- Status changed from Feedback to Closed

Sorry I didn't check it.

Please reopen this ticket if someone has trouble yet.
