

Ruby trunk - Bug #4507

FileUtils.cp in 1.9 doesn't preserve permissions unless :preserve is set

03/18/2011 06:57 AM - olegshaldybin (Oleg Shaldybin)

Status: Closed	
Priority: Normal	
Assignee: nobu (Nobuyoshi Nakada)	
Target version: 1.9.3	
ruby -v: ruby 1.9.3dev (2011-03-18 trunk 31122) [x86_64-darwin10.6.0]	Backport: 2.3: UNKNOWN, 2.4: UNKNOWN, 2.5: UNKNOWN
Description =begin By default /bin/cp preserves file permissions when copying a file, -p flag is meant for preserving uid, gid, mtime etc. However with FileUtils.cp in 1.9 permissions are only copied when :preserve => true option is given. I think the least surprise behavior would be to mimic cp behavior. Patch is attached. =end	

History
