Building libruby-static.a with option nodynamic and --with-static-link-ext doesn’t disable dlopen

I uncomment option nodynamic in ext/Setup and run ./configure --with-static-link-ext, then make libruby-static.a

I then compile this:
/* trial.c */
#include "ruby.h"
int main(){
  ruby_init();
  return 0;
}

like so:
gcc -c trial.c -o trial.o -Iruby-1.9.2-p180/include -Iruby-1.9.2-p180/.ext/include/i686-linux
gcc -static trial.o -Lruby-1.9.2-p180 -lruby-static -lpthread -lrt -ldl -lcrypt -lm -o trial

And I see this warning:
ruby-1.9.2-p180/libruby-static.a(dln.o): In function `dln_load':
/home/alex/projects/scratch/ruby/ruby-1.9.2-p180/dln.c:1276: warning: Using `dlopen' in statically linked applications requires at runtime the shared libraries from the glibc version used for linking

I specifically do not want any run-time code loading capability, but I can see no documented way to disable dlopen; is there any way to silence this warning?

History

#1 - 07/02/2011 05:33 AM - nobu (Nobuyoshi Nakada)
- Tracker changed from Bug to Feature

There is no way to disable dynamic loading now.  
--with-static-linked-ext just let all bundled extension libraries linked statically.

#2 - 07/10/2011 03:38 PM - naruse (Yui NARUSE)
- Target version changed from 1.9.2 to 2.0.0

#3 - 03/25/2012 04:35 PM - mame (Yusuke Endoh)
- Status changed from Open to Assigned
- Assignee set to nobu (Nobuyoshi Nakada)
- Priority changed from Normal to 3

#4 - 11/20/2012 10:01 PM - nobu (Nobuyoshi Nakada)
- Status changed from Assigned to Feedback

Can't you disable it with the following?
ac_cv_func_dlopen=no configure

#5 - 11/24/2012 12:00 AM - nobu (Nobuyoshi Nakada)
- Status changed from Feedback to Closed
- % Done changed from 0 to 100

This issue was solved with changeset r37821.
Alex, thank you for reporting this issue.
Your contribution to Ruby is greatly appreciated.
May Ruby be with you.
