

Ruby master - Feature #4982

Print difference of benchmark runs for `make benchmark`

07/06/2011 01:19 PM - drbrain (Eric Hodel)

Status:	Closed
Priority:	Normal
Assignee:	
Target version:	
Description	
The attached patch adds printing of the difference in time between BASERUBY and RUNRUBY when make benchmark is run. This makes it easy to quickly determine if changes have increased or decreased the speed of ruby.

History

#1 - 07/06/2011 06:53 PM - kosaki (Motohiro KOSAKI)

This sound good idea.

'make benchmark' result is not stable. then, I always use "-r 5". So, It would be better if we can compare average performance.

#2 - 07/07/2011 06:48 AM - drbrain (Eric Hodel)

- Status changed from Open to Closed

- % Done changed from 0 to 100

This issue was solved with changeset r32430.

Eric, thank you for reporting this issue.

Your contribution to Ruby is greatly appreciated.

May Ruby be with you.
