

Ruby trunk - Bug #4989

Document Socket constants

07/08/2011 05:43 AM - drbrain (Eric Hodel)

Status: Closed	
Priority: Normal	
Assignee: akr (Akira Tanaka)	
Target version: 1.9.3	
ruby -v: -	Backport:
Description	
The attached patch documents most of the Socket constants by adding a third field to ext/socket/mkconstants.rb containing the documentation.	
I'm not sure if all the documentation I wrote is correct since finding the appropriate information across all the supported platforms was difficult.	
May I commit it?

Why change all the statuses to low here? I don't see the validity of your change, especially as this one comes with a patch: surely that should be higher, to ensure the patch can be cleanly applied?

Priority changed from Normal to Low

Bug [#4989](#): Document Socket constants
<http://redmine.ruby-lang.org/issues/4989>

Author: Eric Hodel
Status: Open
Priority: Low
Assignee:
Category:
Target version: 1.9.3
ruby -v: ruby 1.9.3dev (2011-07-07 trunk 32431) [x86_64-darwin10.8.0]

The attached patch documents most of the Socket constants by adding a third field to ext/socket/mkconstants.rb containing the documentation.

I'm not sure if all the documentation I wrote is correct since finding the appropriate information across all the supported platforms was difficult.

May I commit it?

- ruby -v changed from ruby 1.9.3dev (2011-07-07 trunk 32431) [x86_64-darwin10.8.0] to -

Hi

Why change all the statuses to low here? I don't see the validity of your change, especially as this one comes with a patch: surely that should be higher, to ensure the patch can be cleanly applied?

'low' mean this ticket has no impact to 1.9.3 release schedule. I didn't see the patch. I think Eric and akr-san will decide to commit it or not.

Thanks.

'low' mean this ticket has no impact to 1.9.3 release schedule. I didn't see the patch. I think Eric and akr-san will decide to commit it or not.

OK, thanks for the clarification. So Low status bugs can get fixed prior to 1.9.3 release?

OK, thanks for the clarification. So Low status bugs can get fixed prior to 1.9.3 release?

Yes. But, for clarification, this ticket need that Eric and akr-san agree the change, I think.

Yes. But, for clarification, this ticket need that Eric and akr-san agree the change, I think.

Yes.

I am less concerned about the structure of the patch and more concerned about the content of the patch. If you are experienced in the various socket constants I would appreciate if anyone could review the documentation I have added.

- Category set to doc

#9 - 07/28/2011 09:53 PM - akr (Akira Tanaka)

2011/7/8 Eric Hodel drbrain@segment7.net:

The attached patch documents most of the Socket constants by adding a third field to ext/socket/mkconstants.rb containing the documentation.

I'm not sure if all the documentation I wrote is correct since finding the appropriate information across all the supported platforms was difficult.

May I commit it?

Sorry for late response.

I don't like the constants table format separated by single TAB

because TAB is not distinguishable from SPACE in visual.

I'll commit the patch and change it.
