

Ruby master - Feature #5102

[ext/openssl] Purpose of OpenSSL::PKCS12.new / Allow changing the password

07/27/2011 09:52 AM - MartinBosslet (Martin Bosslet)

Status:	Feedback	
Priority:	Normal	
Assignee:	openssl	
Target version:		
Description		
<p>It seems as if currently creating a PKCS12 with OpenSSL::PKCS12.new is not very useful, all the attributes are read-only. So this could probably be removed or the attributes could be write-accessible, too.</p> <p>Apart from that, it would also be nice to be able to change the password of an existing PKCS#12 file.</p>		

History

#1 - 07/27/2011 10:00 AM - MartinBosslet (Martin Bosslet)

- Status changed from Assigned to Feedback

#2 - 07/27/2011 10:01 AM - MartinBosslet (Martin Bosslet)

- Tracker changed from Bug to Feature

#3 - 11/20/2012 08:48 PM - mame (Yusuke Endoh)

- Target version changed from 1.9.4 to 2.6

#4 - 09/13/2015 03:33 AM - zzak (Zachary Scott)

- Assignee changed from MartinBosslet (Martin Bosslet) to openssl
