

Ruby trunk - Feature #5361

Lice?

09/24/2011 11:05 AM - trans (Thomas Sawyer)

Status:	Rejected
Priority:	Normal
Assignee:	matz (Yukihiro Matsumoto)
Target version:	2.0.0
Description	
Err... why is there a new String method for getting the lice of bytes?	
'hello'.byteslice(2, 2) # => "ll"	
I don't like getting lice ;)	
(In other words what happened to good old readable underscores?)	

History

#1 - 10/31/2011 07:11 AM - agrimm (Andrew Grimm)

Ruby 1.9.3 has been released with the method spelt byteslice. I suspect it will make this spelling change less likely, as people won't want to use byte_slice in Ruby 2.0 but remember to use byteslice in Ruby 1.9.3 patchlevel 0.

#2 - 12/30/2011 04:46 PM - ayumin (Ayumu AIZAWA)

- Target version set to 2.0.0

#3 - 12/31/2011 01:06 AM - ayumin (Ayumu AIZAWA)

- File add-alias_methods.patch added

I'm proposing patch on

#4 - 12/31/2011 01:23 AM - ayumin (Ayumu AIZAWA)

byteslice

alias

byte_size

#5 - 01/04/2012 07:34 PM - ayumin (Ayumu AIZAWA)

- File deleted (add-alias_methods.patch)

#6 - 01/04/2012 07:34 PM - ayumin (Ayumu AIZAWA)

- File deleted (add-alias_methods.patch)

#7 - 01/04/2012 07:35 PM - ayumin (Ayumu AIZAWA)

- File feature_5361.patch added

add documentation for byte_slice and byte_size.

#8 - 03/27/2012 03:08 AM - mame (Yusuke Endoh)

- Status changed from Open to Assigned
- Assignee set to matz (Yukihiko Matsumoto)

#9 - 03/28/2012 01:28 AM - matz (Yukihiko Matsumoto)

- Status changed from Assigned to Rejected

Don't deny your potential to learn.

Matz.

#10 - 03/28/2012 03:25 AM - trans (Thomas Sawyer)

Or to get bit!
