RDoc had a problem: marshal data too short</pre>	

History

#1 - 09/26/2011 11:21 PM - stepheneb (Stephen Bannasch)

The problem I was having seems to occur when I don't also run make clean

This worked:

```
git checkout v1_9_3_rc1
~/bin/autoconf
./configure --prefix=/home/deploy3/ruby/builds/1_9_3_rc1
make clean
make
```

This bug should be closed ... however the specific error reported when generating RI is confusing.
