

Ruby 1.8 - Bug #5599

YAML.load_documents

11/08/2011 11:50 PM - trans (Thomas Sawyer)

Status:	Rejected
Priority:	Normal
Assignee:	
Target version:	
ruby -v:	ruby 1.8.7 (2011-06-30 patchlevel 352) [x86_64-linux]

Description

Just discovered:

YAML.load_documents(@out)

is raising an error "undefined method `call' for nil:NilClass", b/c there is no block, but it is supposed to (and used to) return an array of documents.

It works fine in Ruby 1.9.3.

What version of Ruby did it work in (pre 1.8.7)?

It works fine in Ruby 1.9.3.

Can you just upgrade? I don't plan to fix anything in syck in 1.8, and I'll remove it in Ruby 2.0

I thought it worked in older versions, but maybe not.

I worked around it any way, so it's okay for me. It's up to you if you think it's worth back-porting or not.

Thanks.

I don't think it ever worked in syck, and since I'll remove syck, I'd rather not backport. I think it would be more worthwhile to put effort in to making psych run on 1.8, then people on 1.8 can just use the gem.
