

Ruby master - Bug #5670

Emacs ruby-mode syntax highlighting issue

11/26/2011 01:54 AM - Quintus (Marvin Gülker)

Status:	Third Party's Issue	
Priority:	Normal	
Assignee:	nobu (Nobuyoshi Nakada)	
Target version:		
ruby -v:	ruby 1.9.3p0 (2011-10-30 revision 33570) [x86_64-linux]	Backport:

Description

Hi there,

I'm using Emacs and ruby-mode for editing my Ruby files. ruby-mode, however, doesn't know about the % literals. The following code doesn't get the syntax highlighting I'd expect from it:

=====

Should be highlighted as a regular expression, breaks indentation:

```
regex = %r
```

Should be highlighted as a symbol:

```
symbol = %s|This is a symbol|
```

Should be highlighted as a string:

```
str = %q{This is a string}
```

Should be highlighted as a string:

```
str = %{This is a string}
```

Should be highlighted somehow, but isn't:

```
ary = %w[item1 item2 item3]
```

Should be highlighted as a symbol (not string), sometimes

breaks indentation

symbol = :**"this is a symbol"**

I've been told ruby-mode has been written by Matz and therefore I should file a bug here (see <http://blade.nagaokaut.ac.jp/cgi-bin/scat.rb/ruby/ruby-talk/390526>). If that's wrong, please tell me where else to report this.

=====
