| Please backport r33876 from trunk as it resolves #5675 (unable to build statically with MinGW due to socket extension build failure). | | |

History

#1 - 01/05/2012 05:31 AM - kosaki (Motohiro KOSAKI)

- Subject changed from *Please backport r33876 (refactor socket extension and win32.h)* to *Please backport r33876 (unable to build statically with MinGW due to socket extension build failure)*

I changed subject to avoid misleading. we never backport a mere refactor patch.

#2 - 01/10/2012 11:32 PM - jonforums (Jon Forums)

Please delete/close as this request is confusing due to revert by r33947 and other trunk mods.

If appropriate, I will submit a new request after reviewing/testing trunk commits on ruby_1_9_3.

#3 - 02/07/2012 04:58 AM - kosaki (Motohiro KOSAKI)

- Status changed from *Open* to *Closed*

OK, closed. Thanks for contribution.
