**Description**

Hello,

I noticed Benchmark.benchmark output with an empty caption has an extra space. This is due to my change in r32269, so I am sorry, this is my fault. I guess Benchmark.benchmark is not much used directly and without caption though (and nobody reported this issue).

It also includes a fix to avoid defining constants at the top-level (this was due to class_eval with a block) and a few other small fixes.

You can see the commits on my benchmark branch: https://github.com/eregon/ruby/compare/e3761441...benchmark
(Or https://github.com/eregon/ruby/compare/trunk...benchmark, after the last Merge commit)

Please let me know what I can do to help committing these changes.

- Status changed from Assigned to Closed
- % Done changed from 0 to 100

This issue was solved with changeset r36427.
Benoit, thank you for reporting this issue.
Your contribution to Ruby is greatly appreciated.
May Ruby be with you.
