Ruby master - Bug #6700

[PATCH] Fix some 4xx status classes to inherit correctly from Net::HTTPClientError

07/05/2012 06:48 AM - madeofcode (Mark Dodwell)

| Status: | Closed |
| Priority: | Normal |
| Assignee: | knu (Akinori MUSHA) |
| Target version: | 2.0.0 |

Backport: 

Description
These recently added 4xx status classes were inheriting from Net::HTTPSuccess, which seems incorrect.

I believe they should inherit from Net::HTTPClientError, as with all the other 4xx cases.

Note that this change subtly alters/fixes the behavior of these classes since they will now inherit the EXCEPTION_TYPE = Net::HTTPServerException from Net::HTTPClientError which they would not have had previously. I expect that's disable, but just wanted to flag that.

This issue was solved with changeset r36316.
Mark, thank you for reporting this issue.
Your contribution to Ruby is greatly appreciated.
May Ruby be with you.

- lib/net/http/responses.rb: Fix 4xx classes to inherit correctly from Net::HTTPClientError. [Bug #6700]

Thanks for pointing it out. I merged your patch and added a test.
