Ruby master - Bug #6743
Add documentation for debug library
07/17/2012 02:51 AM - oscardelben (Oscar Del Ben)

Status: Closed
Priority: Normal
Assignee: drbrain (Eric Hodel)
Target version: 2.0.0
ruby -v: 2.0.0dev

Description
Added initial documentation for the library.
I've refactored DEBUGGER__ to Debugger so that it can appear in the documentation listing.

This issue was solved with changeset r36426.
Oscar, thank you for reporting this issue.
Your contribution to Ruby is greatly appreciated.
May Ruby be with you.
lib/debug.rb: Added toplevel documentation. Based on patch by Oscar Del Ben. [Bug #6743], fixes #146 on github.

#3 - 07/18/2012 10:02 AM - drbrain (Eric Hodel)
I like the documentation, but I can't apply the rename from Debugger to DEBUGGER__.

The nodoc additions seem excessive and random too, so I omitted them.

#4 - 07/18/2012 10:43 AM - oscardelben (Oscar Del Ben)
Hi Eric,

Thank you for taking the time to review this. I was actually trying to rename from DEBUGGER__ to Debugger, which made things nicer for Rdoc. This may just be me not understanding how to properly generate docs though.

P.S.: is it useful that I add a separate PR on Github, or is it just noise?

#5 - 07/18/2012 11:07 AM - drbrain (Eric Hodel)
I think matz would need to rule on the name change from DEBUGGER__ to Debugger, so please file it as a separate issue.

I was unsure on the nodocs since they weren't added to all the methods. While debug.rb seems to be only usable from a console, I have not investigated closely enough to see if methods such as suspend, resume and interrupt could be used as API alongside suspend_all, resume_all, etc.. Feel free to update this issue with further nodocs if you think they are all internals.
