Ramdom test failure for test_pstore_files_are_accessed_as_binary_files

09/03/2012 01:00 AM - h.shirosaki (Hiroshi Shirosaki)

Status: Closed
Priority: Normal
Assignee: nobu (Nobuyoshi Nakada)
Target version: 2.0.0
ruby -v: ruby 2.0.0dev (2012-09-01 trunk 36875) [i386-mingw32]

Description

begin
  test_pstore_files_are_accessed_as_binary_files(PStoreTest) sometime fails on ci.rubyinstaller.org.

  2) Error:
     test_pstore_files_are_accessed_as_binary_files(PStoreTest):
     IOError: stream closed
     C:/Users/Worker/Jenkins/workspace/ruby-trunk-x64-build/test/ruby/envutil.rb:60:in `read'
     C:/Users/Worker/Jenkins/workspace/ruby-trunk-x64-build/test/ruby/envutil.rb:60:in `block in invoke_ruby'
     C:/Users/Worker/Jenkins/workspace/ruby-trunk-x64-build/build/.ext/common/win32ole.rb:13:in `call'
     C:/Users/Worker/Jenkins/workspace/ruby-trunk-x64-build/build/.ext/common/win32ole.rb:13:in `block in initialize' This happens on both i386-mingw32 and x64-mingw32 test-all jobs:

     (URL:http://ci.rubyinstaller.org/job/ruby-trunk-x86-test-all/14/console)
     (URL:http://ci.rubyinstaller.org/job/ruby-trunk-x64-test-all/11/console)

  This seems due to timeout(10 seconds) since the test is slow (usually over 5s) on Windows with HDD disk.

  make test-all TESTS="-v test_pstore.rb"

  PStoreTest#test_pstore_files_are_accessed_as_binary_files = 8.33 s = .

  If other processes run in parallel, it would be possible to take time over 10s (timeout).
  I confirmed same IOError: stream closed was raised on my local box by setting shorter timeout.

  The reason of IOError: stream closed would be that the pipe is closed at ensure block in EnvUtil#invoke_ruby while a thread which reads from the pipe is alive.
  If killing threads before closing pipe, Timeout::Error is shown.

  It would be nice to know the cause of error easily if Timeout::Error was shown in the case of timeout.

  And more longer timeout would be helpful not to fail this test for Windows.

  I attached a patch. This increases timeout to 15s.

  Luis Lavena also confirmed this patch helped when tested manually on the worker machine.
